v.

Case No. \_\_\_\_\_

(The United States of America)  
The Office of the President of the United States  
George W. Bush, President  
(and other named and yet named defendants)  
Defendants.

**COMPLAINT FOR FULL DISCLOSURE AND JUDICIAL  
REVIEW OF THE U.S. SPECIAL VIRUS PROGRAM**

BACKGROUND OF THIS COMPLAINT

Since the late nineteen seventies the world has pondered and dealt with a mystery called "AIDS". In July 1992, plaintiff Boyd Ed Graves, received a diagnosis of HIV and began researching the origin of AIDS as perhaps a way to combat it. Over the last fifteen

*CR*

years, plaintiff's research has accurately led to a federal virus development program entitled the U.S. Special Virus program (1962 – 1978), as the wellspring of the genesis of AIDS. Any review of the fifteen progress reports of this 'mostly-secret' federal program will solve AIDS. But for the laws governing freedom of information, the American people would never know the truth about the eugenics-led laboratory origin of AIDS.

In this instant action, on May 15, 2000, defendant United States, Dr. Victoria Cargill, located the Special Virus program in the archives of the National Cancer Institute ("NCI"). See, Exhibit 1, herein. According to Dr. Cargill, she referred the discovery of the flowchart proof of the laboratory origin of AIDS to defendant United States, Dr. Alan S. Rabson, Deputy Director of the NCI.

Any review of the correspondence between the parties, including United States defendant, Judy Grosberg, (NCI archivist) will show:

- a) The archives contained progress reports #'s 14 and 15 of the U.S. Special Virus program.
- b) The information about the Special Virus program was turned over to Dr. Rabson.
- c) The parties discussed the specific reports in various correspondence over a number of years. See, Exhibit 2, herein.
- d) The documents are not currently in the archives and their whereabouts is allegedly, presently unknown.

## STATEMENT OF JURISDICTION

This lawsuit is filed in accordance with the January 9, 2007 final agency determination of defendant Michael Leavitt, Secretary, Health and Human Services under the Freedom of Information Act, 5 USC section 552. See, Exhibit 3, herein and the United States Constitution regarding citizen right to life and state murder.

**This issue of the U.S. ORIGIN of AIDS is of extreme public significance and importance.** Plaintiff prays the court will allow for the **'widest latitude'** in the statutory framework for the full realization of the multitude of issues incumbent in this case.

### THE MISSING PROGRESS REPORTS

Progress Reports 14 and 15 of the U.S. Special Virus program are pivotal in our further understanding of the U.S. ORIGIN of AIDS for a number of reasons. First, the two missing progress reports are the end reports of the secret, virus program in that they represent the years, 1977 and '78. Second, progress report #15 reveals the 'visible' taxpayer budget for the development of AIDS. Third, progress report #14 reveals the work of defendant United States, Peter Duesberg, which further shows the subterfuge of the U.S. Constitution and the truth.

The missing progress reports are crucial to the full understanding of the federal program that made AIDS, and they are crucial to solving and ending AIDS.

## DR. RABSON IS A MEMBER OF THE SPECIAL VIRUS PROGRAM

Dr. Alan S. Rabson has a “vested interest” in not wanting the American public to know about the U.S. Special Virus program. He has removed the progress reports from the archives because he is listed as a member of the ‘Developmental Research Segment’ of the Special Virus program. See, Exhibit 4, herein.

Dr. Rabson was also instrumental in ‘thwarting’ the June 2002 General Accounting Office (“GAO”) “ORIGIN of the AIDS Virus” report whereby he certified the accuracy of the fake report, anonymously. See, Exhibit 5, herein. The record reflects United States defendant, David Walker simply chose to not respond to a

timely filed, "Request for Factual Correction" of the fraudulent GAO report. See, Exhibit 6, herein.

Dr. Rabson must be held to account for his individual and official acts, both then and now. The Court should compel Dr. Rabson to produce the missing progress reports and provide a sworn affidavit relative to his role in the U.S. Special Virus program.

THE U.S. DISTRICT COURT FOR THE SOUTHERN  
DISTRICT OF CALIFORNIA

It is important to note plaintiff has previously attempted to bring a number of related legal actions regarding the U.S. ORIGIN of AIDS in this Court. **Judge Jeffrey Miller dismissed the NINTH Circuit appeal without notice to the parties and the U.S. attorney agrees.**

This Court has summarized plaintiff as follows:

(Plaintiff presented argument in open court on July 3, 2003)

[O]n July 4, 2003, San Diego Police Officers arrested him (plaintiff) for making “irrational statements the federal government made AIDS” After his arrest, the officers allegedly took plaintiff into custody, beat him, physically and verbally abused him, injected him with a substance, and transported him by ambulance to the violently mentally ill ward of the Veteran’s Hospital in La Jolla California. Plaintiff then claims he was “held there” (incarcerated) against his will for 72 hours (and was) reluctantly released by the [Veteran’s] Hospital on Monday, July 7, 2003.” This entire episode, plaintiff insists, was in retaliation for plaintiff’s statement concerning the United States government’s responsibility for the AIDS virus.

#### THE 1971 AIDS BLUEPRINT FLOWCHART

The 1971 “research logic” of the U.S. Special Virus is without doubt the key document to dismantling AIDS. **The flowchart proves the “design”, “purpose” and “intent” of the United States to make a “contagious cancer that selectively kills”. The**

virus particle isolated under the first “decision point” of the flowchart proves under electron microscopy this is the origin of AIDS.

The 1971 flowchart provides a workmanlike approach to the fifteen progress reports of the U.S. Special Virus program. It is also clear that in PHASE IV-A of the program, experiments were conducted to inhibit and control AIDS. The American people are entitled to a judicial review of the U.S. Special Virus program.

#### **PRESIDENT BUSH’S 2003 STATE OF THE UNION AIDS ORIGIN STATEMENT**

In President’ Bush’s 2003 State of the Union Address, he made a point to say, “ AIDS is a plague of nature”. It is not. AIDS is a plague of Aryan man supported by (e.g.), U.S. Public law (91-213). According to the 1969 Congressional Record, U.S. House Resolution 15090, AIDS is a ‘weapon of depopulation”.

This is further underscored by the May 1946 Appropriations hearing recorded in the June 3, 1946 TIME magazine article,

“Better than the Bomb”. In actuality, the development of AIDS precedes the 20<sup>th</sup> Century.

**HIV/AIDS is the result of a century long hunt for a contagious cancer that selectively kills.** If we compel the United States to replace in its archives those documents that have been removed, we strengthen our resolve for truth and fact and our inherent right to know, and our inalienable right to life. The missing progress reports, when returned, coupled with the plethora of U.S. AIDS development documentation will assist this plaintiff and the American people in truly understanding the truth about the greatest man made loss of human life in the history of the world. Our cause is just, it is our union, which is imperfect. **WHEREFORE;** plaintiff prays the Court will Order the United States to relocate and replace progress reports #14 and 15 (1977, '78) back into the archives of the National Cancer Institute and award reasonable attorney fees and other costs to plaintiff who has pursued this

“public interest disclosure” for nine years in the federal court system because of its extreme public and global significance.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Boyd Ed Graves", with a long horizontal flourish extending to the right.

MAY 15 2000

Boyd E. Graves, Esq.  
2700 Washington Street  
Apartment 1402  
Cleveland, Ohio 44113

Dear Mr. Graves:

I am writing to follow up on our telephone conversation last week regarding the flow chart on the Human Immunodeficiency Virus (HIV). As I indicated on the telephone, I called you in response to a telephone contact you made to Ms. Linda Jackson in our office regarding this flow chart. Using the information you provided, I located and read the materials on your web sites:

<http://www.alltheweb.com>

<http://www.aidsbiowar.com>

Subsequent to our telephone conversation, I located and contacted Mrs. Judith Grossberg, the librarian at the National Cancer Institute archives. She confirmed the presence of the reports on the Special Virus, and obtained report #8. I have reviewed this report, as well as the flow chart, to which you referred.

I have referred this matter, and the report citations to the National Cancer Institute, as the research was conducted within their Institute. I have provided for them the specific report numbers, and citations which you shared with me, as well as your web sites indicated above.

Thank you for your interest in AIDS.

Sincerely,

*Victoria A. Cargill, MD, MSCE*

Victoria A. Cargill, M.D., M.S.C.E.

MSC 0255  
Bethesda, MD 20892

Dear Dr. Cargill:

As a follow up to our prior conversations and your May 15, 2000 letter, I have been in touch with Dr. Alan Rabson. Dr. Rabson referred me to the Zinder Report to prove the Special Virus program was discontinued in 1977. Dr. Rabson was unaware of Progress Reports #14 (1977) and #15 (1978) which absolutely prove the program continued to produce and proliferate a candidate virus. We can prove this program produced 15, 000 gallons of a "new" immune-suppressing virus.

You state in your letter that you were in possession of the flowchart and some of the Progress Reports of the program.

Please review Phase IV-A of the flowchart and the ensuing decision box. Phase IV-A is designated "Immunological Control" and does appear to hold many of the early secrets with respect to "control" and "reversal" of the Special Virus.

My eight years of research has put me in contact with many distinguished expert medical doctors and scientists from around the world. They are unanimous, the flowchart is the "missing link" in conclusively proving the true laboratory origin of AIDS.

It is my understanding that you are in possession of Progress Report #14 (1977) of the Special Virus program. Please refer to pages 34-47 and the international agreements that are encompassed. There is clear proof the Special Virus was developed in consistent collaboration with other governments, including the Soviet Union. See, Memorandum of Understanding (1972).

There is significant involvement of the National Institutes of Health ("NIH"). Additionally, Dr. Rabson is also a contributor to the program. We do not believe this federal program should be set aside nor left out of the equation in search for answers and solutions to the AIDS pandemic. We believe there are critical experiments in this program, where, if reviewed, would lead to immediate medical breakthroughs for people living with HIV and AIDS.

We believe you have an obligation to the American people to further review this program and incorporate the wisdom of American and world experts seeking to resolve the AIDS crisis.

In the alternative, we seek emergency funding (\$250,000) to conduct a world conference for joint review of the flowchart and 15 progress reports. Please contact me immediately to begin the process for review of this federal program. The delay and orchestrated silence only abet the devastating effects of a "contagious-cancer" virus that selectively kills.

Review of the Special Virus program is paramount in our efforts to understanding the true origin of AIDS.

Sincerely,

Boyd E. Graves, J.D.  
Director-AIDS Concerns  
the Common Cause Medical Research Foundation  
(Don Scott-President, Ontario Canada)

JAN - 9 2007

Appeal Number: PHS2K6-A-058

Mr. Boyd Ed Graves, J.D.  
3942 Florida Street  
San Diego, California 92104

Dear Mr. Graves:

This is in response to your May 3 letter in which you appealed the adequacy of the National Institutes of Health (NIH) search for records responsive to your December 9, 2005, Freedom of Information Act request. You requested copies of progress reports number 14 and 15 of the U.S. Special Virus Program. You were advised that the NIH search revealed no records responsive to your request. I have completed my review of your appeal.

You wrote that the documents were in the possession of the National Cancer Institute (NCI) archives as evidenced by an internet URL that appears to be no longer available. You believe the requested documents were purposefully removed to prevent release.

My review indicates that a thorough search of the NIH/NCI files was conducted and no records within the scope of your request were located. Further, NIH advises that NCI does not maintain an official NCI archives. The documents you requested would have been maintained as library materials. However, a search of the appropriate files did not locate the requested records.

NIH has provided me with a description of its efforts to locate records on your behalf and I am satisfied that an adequate search was conducted. Therefore, I must uphold the NIH determination that a further search failed to reveal any documents responsive to your request.

Page 2- Mr. Boyd Ed Graves, J.D.  
PHS2K6-A-058

Because this response constitutes final agency action, you may seek review in the District Court of the United States in the district in which you reside, in which your principal place of business is located, in which the records are located, or in the District of Columbia.

Sincerely yours,

A handwritten signature in black ink, appearing to read "CH Pearson". The signature is written in a cursive, flowing style.

Exhibit 5

June 17, 2002

The Honorable James A. Traficant, Jr.  
House of Representatives

Subject: *Origin of the AIDS Virus*

Dear Mr. Traficant:

In response to your request to review an individual's allegations that the National Cancer Institute's Special Virus Cancer Program (SVCP) created the AIDS virus, we obtained information on (1) the overall stated purposes and outcomes of SVCP, (2) scientific assessments of the origins of the AIDS virus (HIV-1) and any possible evidence regarding the origins of the AIDS virus at SVCP, and (3) the outcome of recent litigation regarding the origins of the AIDS virus. On June 13, 2002, we briefed your staff on the results of our analysis. The enclosed slides formed the basis of the briefing we presented.

To address our objectives, we consulted experts on HIV/AIDS and on SVCP, reviewed SVCP progress reports and summaries as well as documents that allege SVCP created the AIDS virus. In addition, we obtained information on recent litigation involving the individual's allegations. In summary, we did not find evidence to support the allegation that SVCP created the AIDS virus. Comments from the National Cancer Institute on a draft of the briefing slides concluded that they are historically and scientifically accurate.

We are sending copies of this report to the Secretary of Health and Human Services and the Acting Director of the National Cancer Institute. We will also make copies available to others on request. In addition, the report will be available at no charge on the GAO Web site at <http://www.gao.gov>. Please contact me at (202) 512-7119 if you have any questions. The major contributor to this report was Lawrence S. Solomon.

Sincerely yours,

Janet Heinrich  
Director, Health Care—Public Health Issues

# Origin of the AIDS Virus

Briefing for  
the Office of the Honorable James A. Traficant, Jr.,  
House of Representatives

By the U.S. General Accounting Office  
June 13, 2002

Enclosure

# Background

- An individual has alleged that the visna virus, which caused illness and death in Icelandic sheep, was used by the National Cancer Institute's (NCI) Special Virus Cancer Program (SVCP) to develop HIV-1, the virus that has caused the global AIDS pandemic.
- This individual cited a SVCP research program flowchart as evidence that HIV-1 was developed intentionally in its laboratories.

Enclosure

Enclosure

# Objectives

- Identify overall stated purposes and outcomes of SVCP.
- Describe scientific assessments of the origins of the AIDS virus and any possible evidence regarding the origin of the AIDS virus at SVCP.
- Describe outcome of recent litigation involving the individual's allegations of federal government involvement in the origins of the AIDS virus.

Enclosure

Enclosure

# Methodology

To address our objectives, we:

- Consulted experts on HIV/AIDS and on SVCP. They have expertise in genetics, cell biology, viral oncology, biochemistry, internal medicine, epidemiology, public health, and dentistry. Some of these experts are cited by the individual as supporters of the allegation that SVCP created the AIDS virus.

Enclosure

Enclosure

## Methodology (continued)

- Reviewed SVCP progress reports and summaries issued between 1967 and 1984.
- Reviewed documents that allege SVCP created the AIDS virus.
- Obtained information on recent litigation addressing the individual's allegations.
- Performed our work from January through May 2002 in accordance with generally accepted government auditing standards.

Enclosure

Enclosure

# Purpose of SVCP

- NCI directed SVCP within the intramural laboratories from 1964 to 1980. After 1980, the work of SVCP was incorporated into NCI's broader National Cancer Plan.
- Purpose was to find viruses in human cancer cells, relate them to specific cancers (leukemia, etc.), and develop means to block their effects and reduce cancer growth.

Enclosure

Enclosure

## Purpose of SVCP (continued)

- In 1972, SVCP developed a flowchart depicting research program to investigate viral oncology (the study of how viruses cause cancer).
- Outcome of SVCP did not lead to discovery of viruses in human cancer cells, but did result in several advances in molecular biology.

Enclosure

Enclosure

# Scientific Assessment on the Origins of the AIDS Virus

- The first scientific evidence of HIV-1 predates the 1964 commencement of SVCP.
- HIV-1 was found in blood samples of an African man who died in 1959. (*Zhu, Tuofu et al. "An African HIV-1 Sequence from 1959 and Implications for the Origin of the Epidemic," Nature 391, no. 6667 (1998): 594-97.*)
- HIV-1 was likely transferred to humans before 1955 from a subspecies of chimpanzees infected with simian immunodeficiency virus (SIV). (*Korber, Bette et al. "Timing the Ancestor of the HIV-1 Pandemic Strains," Science 288, no. 5472 (2000): 1789-96.*)

Enclosure

Enclosure

# Scientific Assessment on the Origins of the AIDS Virus (continued)

- Historical analyses of virus development have demonstrated that while the visna virus and HIV-1 shared some common origins thousands of years ago, mutations of key genes over time have resulted in a wide divergence of these two viruses.
- These analyses have also demonstrated that the laboratory combination of the visna virus and HIV-1 was highly improbable.

Enclosure

Enclosure

# Scientific Assessment on the Origins of the AIDS Virus (continued)

- Therefore, there is no evidence that SVCP created the AIDS virus.

# Recent Litigation Involving Allegations Concerning the Origins of the AIDS Virus

- U.S. District Court (Northern District of Ohio) issued order September 16, 1999, dismissing allegations that the federal government developed agent that subsequently became known as AIDS.
- U.S. Court of Appeals (Sixth Circuit) affirmed the U.S. District Court order November 7, 2000. The Court of Appeals referred to the allegations as having “no basis in law or in fact.”

Enclosure

Enclosure

# Recent Litigation Involving Allegations Concerning the Origins of the AIDS Virus (continued)

- U.S. Supreme Court denied petition to review the case June 4, 2001.

[*Graves v. Cohen*, No. 98-02209 (N.D. Ohio Sept. 16, 1999), *aff'd* 238 F. 3d 421, 2000 U.S. App. LEXIS 29203 (6<sup>th</sup> Cir. Nov. 7, 2000), *cert. denied sub nom. Graves v. Rumsfeld*, 532 U.S. 1072 (2001).]

Enclosure

Enclosure

## Comments from NCI

- We received oral comments from NCI on a draft of this briefing. The comments stated that the information contained in this briefing is historically and scientifically accurate.

**REQUEST FOR FACTUAL CORRECTION**  
**IN THE GAO ORIGIN OF AIDS REPORT**

**DATED JUNE 13, 2002**

June 19, 2002

On Behalf of the American People

To the Comptroller General

U.S. General Accounting Office

Dear General Walker:

We seek the integrity of the General Accounting Office regarding an investigation into a "secret" federal virus program, the U.S. Special Virus-Cancer Program (1962 – 1978). The history of the background is as follows:

1.
  1. On July 10, 2001, I hand-delivered to the office of Congressman James Traficanti a packet of U.S. documents relative to the U.S. development of HIV/AIDS. Those documents were reviewed and discussed with the Congressman's Chief of Staff, Anthony Traficanti. Mr. Traficanti has stated publicly, on more than one occasion, he found the documents "shocking" and "compelling".
  2. On or about July 23, 2001, the Congressman directed Mr. Traficanti to contact your agency for accountability of the program's identified budget, \$550 million of U.S. taxpayer money.
  3. On or about August 23, 2001, your agency responded that an investigation was ensuing. Then there was a major disaster.
  4. On or about December 4, 2001, the investigators for your Health Care Team (Solomon & Heinrich) contacted Mr. Traficanti that they had been assigned to further the review of the one half billion dollar program. On that same day Mr. Traficanti notified me that the investigators would be calling to speak with me.
  5. On or about January 4, 2002, the investigators conducted a conference call with me, leaving me with the impression I would have an opportunity to further provide additional documentation and experts.
  6. On or about February 15, 2002, I tried to ascertain which documents of mine were before your agency. In a February 25th letter Mr. Michael Gryszkowiec answered and stated that he estimated "the work" would be completed by the end of April. Mr. Gryszkowiec suggested I make a request for the list of documents upon completion of the investigation.
  7. On or about June 13, 2002, your agency briefed the Congressman and Mr. Traficanti. Quoting from an unnamed source at the National Cancer Institute, your agency was convinced the U.S. Special Virus program had nothing to do with any development of HIV/AIDS.

**THE 1971 (AIDS DEVELOPMENT) FLOWCHART**

The U.S. Special Virus program produced fifteen years of missing medical and scientific history contained in yearly progress reports of the program. The "research logic" of the program is found in a blueprint "flowchart" located in a number of the progress reports, and first found at page 61 of progress report #8 (1971). The preceding sixty pages in progress report #8, answer nearly every question as to the nature, intent and purpose of the program. Specifically, we point to page 2,

- o "The Viral Oncology Area is responsible for planning and conducting the Institute's program of coordinated

# THE ISOLATION OF A HUMAN RETROVIRUS

- **An RNA-dependent DNA polymerase similar to that associated with RNA tumor viruses was detected in human leukemic cells but not in normal cells stimulated by phytohemagglutinin. THE ENZYME WAS ISOLATED, PURIFIED AND CONCENTRATED 200-FOLD, MAKING POSSIBLE ITS FURTHER CHARACTERIZATION AND STUDY IN RELATION TO THE LEUKEMIC PROCESS IN MAN.**

The progress reports prove a human retrovirus was isolated and enhanced, the United States has yet to account for the 1971 human retrovirus. The U.S. Special Virus program plays a significant role in the development of HIV/AIDS contrary to the whitewash, unprofessional report released by your agency on June 13, 2002.

According to the Proceedings of the United States, HIV/AIDS evolved from a prototype visna virus traced to the strain created by Nazi Germany for the Icelandic sheep 'wasting' experiments that began in 1932. See, Vol 92, pp.3283 – 3287, see also, e.g., Sonigo, P, et. al., "Nucleotide Sequence of the Visna Lentivirus; Relationship to the AIDS Virus", Cell 1985 Aug;42(1), pp. 369 – 382. A cursory review of a January 1985, pp. 173 – 177, Science Magazine article, co-authored by Dr. Robert Gallo, concludes HIV/AIDS evolved from visna by showing the two lentiviruses are identical at 5 different stage developments. The U.S. Special Virus program and its fifteen progress reports are relative to the laboratory creation

of HIV/AIDS on the nazi visna connection alone. However, on page 39 of the 1971 progress report, the United States concedes that visna virus had never before been seen in human disease. A review of the United States patent office proves that AIDS (patent number 4647773) and Visna (patent number 5112756) are related. Consequently you find a plethora of visna science papers in the development of the U.S. Special Virus. Additionally, the homology science between HIV/AIDS and VISNA is 30%. According to Professor Robert E. Lee, author, "AIDS: An Explosion of the Biological Timebomb?", visna plays a significant role in the development of AIDS.

The etiology of visna appears to have a nefarious beginning, South Africa 1915 (under German control) (Graff Rennet Disease), 1923 Rocky Mountain National Laboratory (Montana) and the full HIV/AIDS precursor, the importation of visna to the sheep in Iceland by nazi Germany. (When the Icelandic farmer began watching helplessly as the sheep were withering and dying, they proclaimed it to be "visna" (wasting). Just as they were beginning the illegal human subject experimentation on African American sharecroppers in Tuskegee, Alabama, they were testing HIV/AIDS on the sheep in Iceland. Following World War II, nearly all of the nazi biological scientists were secretly imported into the United States. (Project Paperclip). Within this same time period every official projection of population, predicted a collapsing world around the turn of the century (2000). The newly formed Central Intelligence Agency, which had existed under another name, sought a Black-Ops program for the development of a biological agent to thwart population, particularly in Sub-Saharan Africa. Under the direction of the Special Operation Division, the program was named MK-NAOMI and four of our leading biological experts developed an information audiotape entitled, "Virus Makers of the CIA". This project received "special" funding in an off the record appropriations hearing in 1957 to seek to make offensive biological agents under the name of Special Operation -X. There are no cases of immune suppressing viruses prior to 1957. In this regard, in addition to all the visna papers affiliated with the U.S. Special Virus program, it is AIDS DEVELOPMENT PAPER #650 located on page 335 of the 1971 progress report which bears a strong and direct relationship to HIV/AIDS, "Reverse Transcriptase of Type C (visna) Virus Particles of Human Origin". According to Professor Lee, "Type C" is a classification of visna virus, which itself appears to be man made.

### THE WHITE WASH OF THE FEDERAL DEVELOPMENT OF HIV/AIDS

The June 13, 2002 report issued by your agency, relative to federal documents strongly suggesting an iatrogenic origin of HIV/AIDS, is a whitewash and an abomination to the American people. **How can our top academic science journal, the Proceedings of the United States of America be set aside?** Who is the unnamed official that says your June 13, 2002 report is scientifically and medically accurate? Why was the human retrovirus placed in monkeys? When did nazi visna virus cross species to humans in nature? How does a White, homosexual disease turn itself into a health problem for Black women. When does an earthquake have dueling epicenters without man made intervention. By EVERY epidemiological standard, there was some form of "mass infection" in the late 1970's and early 80's. The 1959 case of HIV/AIDS has been sufficiently refuted by the experts, in particular Dr. Alan Cantwell, who also tracked the production of 60,000 liters of HIV/AIDS as the program specifically calls for "large scale production" of the candidate virus. When Dr. Victoria Cargill located the 1971 flowchart in the archives of the National Cancer Institute, she turned the U.S. documents over to Dr. Alan S. Rabson. Dr. Rabson has a vested interest in this secret program not receiving review. Dr. Alan Rabson played a direct role in the development of the U.S. Special Virus, See, e.g., page 5, Progress Report #8 (1971) of the U.S. Special Virus program (1962 - 1978). The fifteen progress report of this secret, federal virus development program answer every question as to the eugenics-minded lunacy of the United States ravishing hunt for a "contagious cancer that selectively kills". We ask for integrity and fairness in the inclusion of the response to the factual errors identified in your June 13, 2002 report on the "Laboratory Origin" of HIV/AIDS.

We have found the wellspring of the genesis of the AIDS pandemic, it is our nation state, it is u.s.

Respectfully submitted,

Boyd E. Graves, J.D.
